

**KURSK STATE UNIVERSITY**  
**THE OLDEST BUT YOUNG AT HEART**

Kursk State University is one of the leading universities in the Central Black-Soil Region. It was founded in 1934, but the history of the university dates back to the 18<sup>th</sup> century when Empress Ekaterina II ordered the establishment of a school for young noblewomen. In 1870 it was transformed into the Mariinskaya Grammar School for Girls and then into a Teacher Training Institute in 1934. The impressive ancient university building, situated at the corner of Radishcheva and Kirova Streets in the centre of Kursk, is a national monument. For years a high spirit of teaching and studentship has existed within these halls.

Today, the university is the leading science and education center in the Kursk Region, and offers a diverse set of specialties, modern educational technologies and various forms of vocational training.

More than 10 000 full and part-time students study in the university's 19 faculties.

The talents of our staff are numerous. We have about 900 tutors and researchers in the 66 university departments. 93 faculty members possess full doctorate degrees, and 440 have Ph.D. degrees.

Kursk State University provides scientific support to economic, technological and social research and projects in the region. The University has an important influence on the education and demographic structure of the Kursk region, helping to preserve its social environment, history, folklore and local crafts.

The numbers of various university scientific schools (psychological, educational, natural sciences and humanities) are famous both in Russia and abroad. Highly qualified specialists are trained through full and part-time graduate studies, PhD programs in 41 areas of specialization and doctoral studies in 7 areas of specialization.

## **EDUCATION WITHOUT BOUNDARIES**

Kursk State University is actively developing international relations. Links with more than 30 universities in Europe, the USA and China have been established. We are in close contact with foreign scientific and teaching organizations, embassies, as well as with international foundations and institutions (ACTR, ACCELS, Central-European University, IREX, German Academic Exchange Service-DAAD, etc.) International exchange programs are very popular among our students.

Today the university is comprised of six education buildings, over 100 natural science labs with a variety of high-tech equipment, nearly 50 specialized study rooms for the humanities, an astronomical observatory, ten multimedia classrooms, a conference hall, a TV-centre, industrial training facilities, art studios, a library and reading halls, zoological, mineralogical and archeological museums, a biological and agricultural testing center, gymnasiums and many other facilities. The construction of a seventh building and a community centre is currently under way. Additional facilities include three hostels and a student medical center.

The international activity of the University is focused on its integration into the international educational arena, and creating an up-to-date system for training foreign citizens in accordance with international standards.

## **IN THE VERY HEART OF RUSSIA.**

Kursk State University is the oldest higher education institution in Kursk.

Kursk is situated in the very heart of Russia. It is a big cultural and industrial regional centre in the Russian Federation. It supports a population of more than 1.2 million people.

Emerged in the XI century, even earlier than Moscow, and being a frontier settlement, Kursk, for many centuries fought to repel enemy invasions. The Kursk region has been a spiritual centre for the Russian Orthodox Church. Korennaya Holy Mother Heritage is famous for the miraculous discovery of the icon "Sky-sign" in 1297. Today, this icon is the main symbol of the American Orthodox Church. Kursk is adorned with several striking historical and spiritual monuments. A masterpiece of architecture - Sergievo-Kazanskiy Cathedral is linked to one of the most respected saints in Russia, Seraphim Sarovski, who was born in Kursk.

Not only Kursk, but also dozens of small towns composing the territory of the Kursk Region, possess both signs of their majestic past and their sophisticated present. They are famous throughout Russia for their folk arts and crafts, their parks and mansions ("Marino", "Mokva"), being the birthplaces of several Russian writers, poets and musicians.

The natural environment of the Kursk region is uniquely beautiful and diverse. The famous reputation of "Streletskaya Steppe" (The Central Black Soil Region State Biospherical Reserve) is justified, since it protects wild virgin grasslands and rare black soils, that have never been touched by a plough, as well as a wealth of flora and fauna native to the region. The songs of Kursk nightingales have become the symbol of the Russian soul.

Today, historians together with teachers and students from the University study this cultural heritage through expeditions and excursions to the historically significant sites. They participate in archeological digs, research archives and carefully analyze the history of their own region. Thus Kursk State University is integrated into the cultural environment of the area.

## **ALL ROADS LEAD TO KURSK, OR TEN REASONS FOR A FOREIGNER TO STUDY AT KURSK STATE UNIVERSITY**

1. The quality of the Russian education system is acknowledged all over the world.

Kursk State University is **one of the leading Russian universities**.
